Super_Bowl_50. The league announced on October 16, 2012, that the two finalists were Sun Life Stadium and Levi's Stadium. The South Florida/Miami area has previously hosted the event 10 times (tied for most with New Orleans), with the most recent one being Super Bowl XLIV in 2010. The San Francisco Bay Area last hosted in 1985 (Super Bowl XIX), held at Stanford Stadium in Stanford, California, won by the home team 49ers. The Miami bid depended on whether the stadium underwent renovations. However, on May 3, 2013, the Florida legislature refused to approve the funding plan to pay for the renovations, dealing a significant blow to Miami's chances.

QUESTION: What injury did Manning suffer the summer before the season started?

ANSWER: a plantar fasciitis injury

● TRUE DOCUMENTS (Gold Standard):

[Chunk ID: doc_792cdde810ae094dc7660d5d::chunk_0]

Super_Bowl_50. Following their loss in the divisional round of the previous season's playoffs, the Denver Broncos underwent numerous coaching changes, including a mutual parting with head coach John Fox (who had won four divisional championships in his four years as Broncos head coach), and the hiring of Gary Kubiak as the new head coach. Under Kubiak, the Broncos planned to install a run-oriented offense with zone blocking to blend in with quarterback Peyton Manning's shotgun passing skills, but struggled with numerous changes and injuries to the offensive line, as well as Manning having his worst statistical season since his rookie year with the Indianapolis Colts in 1998, due to a plantar fasciitis injury in his heel that he had suffered since

Super_Bowl_50. Manning having his worst statistical season since his rookie year with the Indianapolis Colts in 1998, due to a plantar fasciitis injury in his heel that he had suffered since the summer, and the simple fact that Manning was getting old, as he turned 39 in the 2015 off-season. Although the team had a 7–0 start, Manning led the NFL in interceptions. In week 10, Manning suffered a partial tear of the plantar fasciitis in his left foot. He set the NFL's all-time record for career passing yards in this game, but was benched after throwing four interceptions in favor of backup quarterback Brock Osweiler, who took over as the starter for most of the remainder of the regular season.

In the context of professional sports, the summer before a season is often a critical time for players to prepare physically and mentally. For many athletes, including Manning, this period can sometimes be marred by injuries that affect their readiness for the upcoming season. Injuries are a common concern, and teams frequently monitor the health of their players closely during this time. In the case of Manning, reports from that summer indicated heightened caution regarding training regimens and rehabilitation efforts, echoing similar concerns seen with other quarterbacks in the league, such as those who faced recovery from shoulder or knee issues.

Such injuries not only impact individual performance but can also have significant implications for team dynamics as the season approaches.
